July 2017

CPP is on the MOVE!

The first 6 months of 2017 have proven to be very exciting for CPP – and its members! April marked the release of CPP’s new, user and mobile-friendly website, and on July 13th, CPP held its first Member Social where our new logo was officially revealed to our guests. Effective mid-June, CPP also moved into a new office space. Please stop by and say hello and check out our new office!

CPP’s new address is 2390 Orangewood Avenue, Suite 585, Anaheim, CA 92806.

Together, We Make a Difference!

SUMMER REMINDERS Don't Let Equipment Theft Ruin Your Vacation

Summer marks construction industry’s busy season. It also tends to bring crooks out of the woodwork, looking for opportunities to make the most of equipment or a laydown yard that’s been left unsecured.

Be sure to take a bit of time before your long-awaited vacation to follow CPP’s prevention guidelines and secure your assets before it’s too late.

Not sure where to start? We’re happy to help! Request an O.A.N. (Owner Applied Number), purchase CPP Reward Hotline decals or request any of our helpful prevention forms by calling or emailing us.

Enjoy your summer – don’t forget the sunscreen!

CHECK OUT OUR NEW WEBSITE!

www.cppsocal.org

In April, CPP launched our long awaited new website. CPPsocal.org is a user friendly and mobile friendly site that allows our members to access all forms from your phone or desktop while giving our members the convenience of completing and sending incident reports from the field. Our password-protected Law Enforcement resource page is a huge asset to both law enforcement and our members alike. The new website has an updated, clean layout and gives us the opportunity to highlight the support of our valued Partners.

Visit cppsocal.org today and let us know what you think!

In Construction Theft?

The summer months have shown an increase in the theft of all types of heavy equipment attachments. There has also been an increase in the theft of small equipment such as generators and welders. It’s easy to forgo marking “small” items and focus on heavy equipment. The value of these items quickly becomes apparent when your job grinds to a stop because attachments are missing.

Thieves look for items, large or small, that are easy to obtain and re-sell. Attachments are also difficult to identify – unless you utilize CPP’s prevention methods.

Start planning now to invest time during the upcoming slower months to mark your attachments, small tools and all your equipment. Purchase (and use!) additional CPP Reward Hotline decals and signs. Consider painting your attachments a distinctive color. Weld or stamp company information directly onto the attachment. Include your OAN and other company specific markings. If you don’t already have one, request an OAN (Owner Applied Number), by giving us a call. The application is quick, easy and free and CPP handles the paperwork.

Look at your equipment through the eyes of a thief and ask yourself which items you’d have an easy time taking and then selling. Then take steps to avoid being a victim of theft. And give us a call. After all, “Prevention” is our middle name!
